SAFETY DATA SHEET

According to EC 2020/878 (REACH) and 1272/2008 (CLP)

Last update: September 12, 2024

1. IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/ UNDERTAKING

1.1 PRODUCT IDENTIFIER

Product name: Filament Noctuo HIPS Classic

1.2 RELEVANT IDENTIFIED USES OF THE SUBSTANCE OR MIXTURE AND USES ADVISED AGAINST

Intended use: FDM 3D printing material

1.3 DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

Supplier:	**Manufacturer:**
Noctuo Sp. zo.o. ul. Sowińskiego 5 44-121 Gliwice, Polska	Noctuo Sp. zo.o. ul. Sowińskiego 5 44-121 Gliwice, Polska

1.4 EMERGENCY TELEPHONE NUMBER

Emergency telephone: +48 42 63 14 724

2. HAZARDS IDENTIFICATION

2.1 CLASSIFICATION OF THE SUBSTANCE OR MIXTURE

Product definition: Mixture

Classification according to Regulation (EC) No 1272/2008 of the European Parliament and of the Council.

This product is not classified as hazardous according to REGULATION (EC) No 1272/2008.

2.2 LABEL ELEMENTS

The product does not require labelling according to GHS criteria in accordance with Regulation (EC) No 1272/2008 of the European Parliament and of the Council.

Hazard pictograms: Not applicable.

Signal word: Not applicable.

Hazard statement: Not applicable.

2.3 OTHER HAZARDS

Results of PBT and vPvB assessment: Not applicable

PBT: This substance / mixture is not PBT, applying the criteria of the Regulations - REACH Annex XIII.

vPvB: This substance / mixture is not PBT, applying the criteria of the Regulation - REACH Annex XIII.

Determination of system disrupting properties functioning of the endocrine system: The mixture does not contain one or more endocrine disrupting substances at a concentration of 0.1% or more

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 SUBSTANCE

3.2 PREPARATION

Nr CAS	Chemical name	Impurities Contributing to Hazard
9003-55-8	Copolymer: styrene-butadiene	Not classified

This product does not contain any additives or foreign substances required for product labelling and hazard classification according to REGULATION (EC) No 1272/2008 or contains regulatory amounts.

4. FIRST AID MEASURES

4.1 DESCRIPTION OF FIRST AID MEASURES

General notes:

Special measures are not necessary.

Following eye contact::	Rinse carefully with running water. Remove contact lenses.
Following skin contact:	In the event of a burn caused by melted product, cool the burnt area immediately, preferably under running water. DO NOT remove the material from the skin. Removal may cause serious tissue damage. Seek medical advice.
Following inhalation:	A person exposed to inhalation of volatile compounds of decomposition should be removed from the contaminated atmosphere, provided with a supply of fresh air, protected from heat loss; seek medical advice if necessary.
Following ingestion:	If swallowed, no special measures are required. If necessary, seek medical advice.

4.2 MOST IMPORTANT SYMPTOMS & EFFECTS BOTH ACUTE & DELAYED

Respiratory irritation. Redness of the eyes.

4.3 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED

No further relevant data available.

5. FIRE - FIGHTING MEASURES

5.1 EXTINGUISHING MEDIA

Suitable extinguishing agents:	Water installation, water in sprays, foam, extinguishing powder, carbon dioxide.
Unsuitable extinguishing agents:	Not applicable.

5.2 SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE:

Combustion products: Carbon dioxide, carbon monoxide (reduction of air/oxygen available), and any unburned hydrocarbons. Overheating/pyrolysis can produce vapors consisting of monomers, low molecular weight polymers and oxidation products.

5.3 ADVICE FOR FIREFIGHTERS

Wear appropriate protective clothing (helmet, goggles, fire-resistant gloves, shoes) and respiratory protection (self-contained breathing apparatus). The product is flammable.

6. ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT & EMERGENCY PROCEDURES

None.

6.2 ENVIRONMENTAL PRECAUTIONS

Do not flush into surface water or sanitary sewer system.

6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP

Collect mechanically. Collect in suitable containers.

6.4 REFERENCE TO OTHER SECTIONS

For information on safe handling, see Section 7.
For information on personal protective equipment, see Section 8.
For information on disposal of contaminated material, see Section 13.

7. HANDLING AND STORAGE

7.1 PRECAUTIONS FOR SAFE HANDLING

During the processing of the product, avoid inhaling fumes, ensuring that the work rooms are well ventilated and, if necessary, they must be captured effectively by an appropriate extraction system.

Take appropriate precautions against the risk of dust explosions during transport, especially unloading; if dust formation occurs, the dust must be removed immediately. Under normal conditions, face masks with filters should be available for use if necessary.

The preparation is a poor conductor and can accumulate electrostatic charges. If dust is generated during work, precautions should be taken, as for non-conductive materials, to prevent the accumulation of electrostatic charges (e.g. minimization of pneumatic transport, provision of an earthing system, absolute prohibition of smoking and the use of naked flames, inerting the atmosphere in grinding mills and in closed systems in general).

Observe normal personal hygiene measures, in particular, do not eat, drink or smoke while working.

7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Store the product in a covered place in tightly closed containers, away from direct sunlight and sources of heat, safely avoiding the possibility of damaging the packaging (octabins, bags, boxes on pallets). Do not store in stacks.

Ensure proper ventilation in all storage rooms.
Take precautions against electrostatic discharge.

7.3 SPECIFIC END USE(S)

The product is designed for use as a filament for 3D printing using FDM technology.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 CONTROL PARAMETERS

The product does not contain significant amounts of materials whose limit values would need to be controlled under workplace conditions.

8.2 EXPOSURE CONTROL

Eye protection:	Not required if dust or fumes are not generated. If present, wear safety glasses.
Skin and body protection:	Good industrial hygiene practice is to minimizing skin contact. When the material is heated, gloves should be worn.
Respiratory protection:	Under normal circumstances, filtering face masks should be available for use when necessary..
Hand protection:	Protective gloves, if necessary.
Other:	Traces of monomers and other volatile substances may be released during processing, especially at extremely high processing temperatures. The work station should be equipped with adequate ventilation and exhaust systems to remove dust and gases/fumes that may be released during processing.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Solid
Appearance:	Circular profile
Odour:	Odourless
pH:	Not applicable
Melting point:	>94°C
Boiling point:	Not specified
Vapour pressure:	Not specified
Vapour density:	Not specified
Density:	1.04 g/cm3
Solubility in water:	Insoluble
Auto-ignition temperature:	Not specified
Burning point:	>300°C
Decomposition temperature:	Not specified

9.2 OTHER SAFETY INFORMATION:

None.

10. STABILITY AND REACTIVITY

10.1 REACTIVITY

None under normal use conditions.

10.2 CHEMICAL STABILITY

Stable under recommended conditions.

10.3 POSSIBLE HAZARDOUS REACTION

No dangerous reactions known.

10.4 CONDITIONS TO AVOID

Exposure to sunlight and/or heat. Build-up of electrostatic charges.

10.5 INCOMPATIBLE MATERIALS

Oxidizing substances.

10.6 HAZARDOUS DECOMPOSITION PRODUCTS

No hazardous decomposition products known.

11. TOXICOLOGICAL INFORMATION

11.1 INFORMATION ON TOXICOLOGICAL EFFECTS

Caustic effect:	Based on available data, the classification criteria are not met.
Mutagenic and carcinogenic effects:	Based on available data, the classification criteria are not met.
Sensitizing effects on the respiratory tract:	Based on available data, the classification criteria are not met.
Sensitizing effects on the skin:	Based on available data, the classification criteria are not met.
Serious eye damage, eye irritation:	Based on available data, the classification criteria are not met.

11.2 INFORMATION ON OTHER HAZARDS

The mixture does not contain one or more endocrine disrupting substances at a concentration of 0.1% or greater.

12. ECOLOGICAL INFORMATION

Under normal conditions, plastic is a very stable product. The product does not form toxic compounds with other substances in the air and water. The filament is poorly biodegradable, but does not pose a threat to the environment. It is practically insoluble in water and can therefore be separated from water.

12.1 TOXICITY

The product is a high molecular weight polymer and cannot be considered an environmentally toxic material.

12.2 PERSISTENCE AND DEGRADABILITY

The product is a non-biodegradable polymer.

12.3 BIOACCUMULATIVE POTENTIAL

It does not accumulate in living organisms.

12.4 MOBILITY IN SOIL

No data available.

12.5 RESULTS OF PBT AND VPVB ASSESSMENT

The substance does not meet the criteria for classification as PBT or vPvB.

12.6 OTHER ADVERSE EFFECTS

The mixture does not contain one or more endocrine disrupting substances at a concentration of 0.1% or greater.

12.7 ADDITIONAL INFORMATION

Use the product in accordance with well-proven working methods, preventing its release into the environment.

13. DISPOSAL CONSIDERATION

13.1 WASTE TREATMENT METHODS

The same occupational health and safety regulations apply to waste as to the preparation. Waste disposal must be carried out in accordance with the relevant regulations of the given country. Incineration must be carried out in approved conditions, possibly in incinerators with energy recovery and water cleaning of smoke exhaust gases. Landfilling of waste should be avoided whenever possible. In cases of necessity, only authorized landfills should be used.

14. TRANSPORT INFORMATION

Not classified as dangerous goods according to transport regulations (IMDG, IATA, ADR / RID).

14.1 UN number

Not applicable

14.2 UN proper shipping name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing Group

Not applicable.

14.5 Environmental hazards

Not applicable.

14.6 Special precautions for user

Not applicable.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

15. REGULATORY INFORMATION

15.1 SAFETY, HEALTH AND ENVIRONMENTAL REGULATIONS /LEGISLATION SPECIFIC FOR THE SUBSTANCE OR MIXTURE

Not subject to regulation.

15.2 CHEMICAL SAFETY ASSESSMENT

A chemical safety assessment has not been conducted for the substances in this mixture.

16. OTHER INFORMATION

The information contained in this sheet is based on current knowledge and experience with the product. This information is intended to support independent assessment of the methods used to ensure safe work with the filament and its safe disposal.
