SAFETY DATA SHEET

According to EC 2020/878 (REACH) and 1272/2008 (CLP)

Last update: September 12, 2024

1. IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/ UNDERTAKING

1.1 PRODUCT IDENTIFIER

Product name: Filament Noctuo HIPS V0

1.2 RELEVANT IDENTIFIED USES OF THE SUBSTANCE OR MIXTURE AND USES ADVISED AGAINST

Intended use: FDM 3D printing material

1.3 DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

Supplier:	**Manufacturer:**
Noctuo Sp. zo.o. ul. Sowińskiego 5 44-121 Gliwice, Polska	Noctuo Sp. zo.o. ul. Sowińskiego 5 44-121 Gliwice, Polska

1.4 EMERGENCY TELEPHONE NUMBER

Emergency telephone: +48 42 63 14 724

2. HAZARDS IDENTIFICATION

2.1 CLASSIFICATION OF THE SUBSTANCE OR MIXTURE

Product Definition: Mixture

Classification according to Regulation (EC) No 1272/2008 of the European Parliament and of the Council (CLP)

Carcinogenicity, Category 2 H351: Suspected of causing cancer.

2.2 LABEL ELEMENTS

Labelling according to Regulation (EC) No 1272/2008 of the European Parliament and of the Council (CLP): The product in the form in which it is placed on the market does not require labelling (Regulation (EC) No 1272/2008 - Annex I, 1.3.4.1).

Hazard pictograms: GHS08

Warning word: Warning

Hazard statement: H351:Suspected of causing cancer

Precautionary statement:

Prevention:
P280 Wear protective gloves/eye protection

Response:
P308 + P313 If exposed or concerned: Get medical advice/attention.

2.3 OTHER HAZARDS

Results of PBT and vPvB assessment: Not applicable

PBT: This substance / mixture is not PBT, applying the criteria of the Regulations - REACH Annex XIII.

vPvB: This substance / mixture is not PBT, applying the criteria of the Regulation - REACH Annex XIII.

Determination of system disrupting properties functioning of the endocrine system: Does not contain any endocrine disrupting substance at a concentration of >= 0.1%.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 SUBSTANCE

3.2 PREPARATION

Nr CAS	Chemical name	Nr. WE
9003-55-8	Copolymer: styrene-butadiene	215-175-0

4. FIRST AID MEASURES

4.1 DESCRIPTION OF FIRST AID MEASURES

General notes:

Remove contaminated clothing.

Following eye contact::	Rinse opened eyes for several minutes under running water.
Following skin contact:	In case of burns caused by melted product, immediately cool the burned area, preferably under running water. DO NOT remove the material from the skin. Removal may cause serious tissue damage. Seek medical attention
Following inhalation:	Exposed to the inhalation of volatile compounds decomposition should be removed from the contaminated atmosphere, provide him with a supply of fresh air, protect from loss of heat; call a doctor.
Following ingestion:	In case of accident or unwellness, seek medical advice immediately (show the label where possible).

4.2 MOST IMPORTANT SYMPTOMS & EFFECTS BOTH ACUTE & DELAYED

Headache, cough, dizziness, nausea, respiratory tract irritation, vomiting, shortness of breath.

4.3 INDICATION OF ANY IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED

No further relevant data available.

5. FIRE - FIGHTING MEASURES

5.1 EXTINGUISHING MEDIA

Suitable extinguishing agents:	Water installation, water in sprays, foam, extinguishing powder, carbon dioxide.
Unsuitable extinguishing agents:	Strong stream of water.

5.2 SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE:

The mixture may emit smoke during a fire consisting of water dust, carbon dioxide (in the absence of air/oxygen), brominated substances such as hydrogen bromide, carbon monoxide and other combustion products. Overheating/pyrolysis may produce fumes consisting of monomers, low molecular weight polymers and oxidation products.

5.3 ADVICE FOR FIREFIGHTERS

Do not breathe fumes from fire or explosion. Fight fire from a reasonable distance with normal precautions. Wear self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT & EMERGENCY PROCEDURES

Avoid contact with skin, eyes and clothing. Do not breathe dust.

6.2 ENVIRONMENTAL PRECAUTIONS

Do not allow the product to enter the sewage system.

6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP

Collect mechanically. Recovery if not contaminated or disposal.

6.4 REFERENCE TO OTHER SECTIONS

Hazardous combustion products: see section 5.
Personal protective equipment: see section 8.
Incompatible materials: see section 10.
Disposal considerations: see section 13.

7. HANDLING AND STORAGE

7.1 PRECAUTIONS FOR SAFE HANDLING

Users should be protected from possible contact with molten material during use. When processing the product, avoid inhaling fumes, ensuring that work areas are well ventilated and it is recommended that they are captured effectively by means of an appropriate fume extraction system. Wash hands before breaks and after work. Keep away from food, drink and animal feed.

7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Store in a covered, dry place, in tightly closed containers, away from sunlight and heat sources. Recommended storage temperature: 15–25°C.
Ensure proper ventilation in all storage rooms.

7.3 SPECIFIC END USE(S)

The product is designed for use as a filament for 3D printing using FDM technology.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 CONTROL PARAMETERS

Ingredients with controlled limits depending on the workplace:
1309-64-4 antimony(III) oxide
OEL: 0.5 mg/m3 in terms of Sb
DNEL values
1309-64-4 antimony(III) oxide
Inhalative Workers-acute local 0.5 mg/m3 (Sb)
PNEC values
1309-64-4 antimony(III) oxide

fresh water	0.113 mg/l (Sb)
marine water	0.0113 mg/l (Sb)
sediment-fresh water	7.8 mg/l (Sb)
sedim-marine water	1.56 mg/l (Sb)
soil	37 mg/kg (Sb)
sewage treatm. plant	2.55 mg/l (Sb)

Additional advice:
Assessment of occupational exposure in accordance with EN 689/2018.

8.2 EXPOSURE CONTROL

Eye protection:	Not required if dust or fumes are not generated. If present, wear safety glasses.
Skin and body protection:	When working with molten filament, use additional gloves that protect against high temperatures.
Respiratory protection:	Respiratory protection is required when dust is formed. Particulate filter (EN 143). P2 (filters at least 94% of airborne particles, colour code: White).
Hand protection:	Heat-insulting gloves when handling molten form.
Other:	It is recommended to wear standard work clothes.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Solid
Appearance:	Circular profile
Odour:	Odourless
pH:	Not applicable
Vapour pressure:	Not applicable
Vapour density:	Not applicable
Density:	1.16 g/cm3
Melting point:	>94°C
Boiling temperature:	Not available
Solubility in water:	Insoluble in water
Auto-ignition temperature:	It is not self-igniting
Burning temperature:	>300°C
Decomposition temperature:	Not available

9.2 OTHER SAFETY INFORMATION:

Information on physical hazard classes
GHS hazard class (physical hazards): not relevant.

10. STABILITY AND REACTIVITY

10.1 REACTIVITY

Under normal use conditions none.

10.2 CHEMICAL STABILITY

Stable under recommended conditions.

10.3 POSSIBLE HAZARDOUS REACTION

Exothermic reaction with: Reducing agents, Powdered metal, Acids.

10.4 CONDITIONS TO AVOID

Exposure to sunlight and/or heat. Accumulation of static electricity. Avoid prolonged melting and storage for long periods of time at very high temperatures.

10.5 INCOMPATIBLE MATERIALS

Oxidizing substances.

10.6 HAZARDOUS DECOMPOSITION PRODUCTS

No data available.

11. TOXICOLOGICAL INFORMATION

11.1 INFORMATION ON TOXICOLOGICAL EFFECTS

Corrosive effect:	Not classified based on available information
Mutagenic effect:	Not classified based on available information
Sensitizing effect on the respiratory tract:	Not classified based on available information
Sensitizing effect on the skin:	Not classified based on available information.
Serious eye damage, irritation effect on the eyes:	The resulting dust may cause eye irritation.
Carcinogenesis:	Suspected of causing cancer.
Target organ toxicity - single exposure:	Not classified based on available information.
Target organ toxicity - repeated exposure:	Not classified based on available information.

11.2 INFORMATION ON OTHER HAZARDS

No data.

12. ECOLOGICAL INFORMATION

12.1 TOXICITY

Not classified as hazardous to the aquatic environment.

12.2 PERSISTENCE AND DEGRADABILITY

The product is a high molecular weight polymer and cannot be considered a toxic material for the environment. From a biological point of view, the product is a non-degradable polymer.

12.3 BIOACCUMULATIVE POTENTIAL

It does not accumulate in living organisms.

12.4 MOBILITY IN SOIL

No data available.

12.5 RESULTS OF PBT AND VPVB ASSESSMENT

This substance/mixture is not PBT, applying the criteria of the REACH Regulation - Annex XIII.

12.6 OTHER ADVERSE EFFECTS

The mixture does not contain one or more endocrine disrupting substances at a concentration of 0.1% or greater.

12.7 ADDITIONAL INFORMATION

Use the product in accordance with well-proven work methods, preventing its release into the environment.

13. DISPOSAL CONSIDERATION

13.1 WASTE TREATMENT METHODS

Dispose of product and packaging as hazardous waste. Dispose of contents/container in accordance with local/regional/national/international regulations.
Do not empty into drains. Completely emptied packaging can be recycled.

13.2 APPLICABLE WASTE REGULATIONS

The classification of key waste numbers/waste designations should be carried out in accordance with the regulation on the introduction of the European Waste Catalogue specific to industries and processes.

Properties of waste that make it hazardous:
HP 7 carcinogenic

13.3 NOTES

Waste should be separated into categories that can be treated separately by local or national waste disposal companies. Please take into account the relevant regulations.

14. TRANSPORT INFORMATION

Not classified as dangerous goods according to transport regulations (IMDG, IATA, ADR/ RID).
Last update: September 12, 2024

14.1 UN number

Not applicable.

14.2 UN proper shipping name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing Group

Not applicable.

14.5 Environmental hazards

Not applicable.

14.6 Special precautions for user

Not applicable.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

15. REGULATORY INFORMATION

15.1 SAFETY, HEALTH AND ENVIRONMENTAL REGULATIONS /LEGISLATION SPECIFIC FOR THE SUBSTANCE OR MIXTURE

Legal requirements are subject to change and may vary from location to location. It is the responsibility of the user to ensure that all of its operations comply with all applicable national, federal, state or provincial and local laws and regulations.

Safety, health and environmental regulations specific to the substance and mixture

Country-specific regulations:	Transposition into national law of the Community Directives listed below.

European Community Regulations:	Directive 90/394/WEEE, and subsequent amendments (carcinogens and mutagens). Directive 2010/75/EU, and subsequent amendments (Industrial Emissions). Directive 2008/98/EC, and subsequent amendments (Waste). Directive 2000/60/EC, and subsequent amendments (Water). Directive 98/24/EC, and subsequent amendments (chemical agents). Directive 2012/18/EU, and subsequent amendments (Seveso).

15.2 CHEMICAL SAFETY ASSESSMENT

A chemical safety assessment of the product is not required.

16. OTHER INFORMATION

The information contained in this sheet is based on current knowledge and experience with the product. This information is intended to support independent assessment of the methods used to ensure safe work with the filament and its safe disposal.
